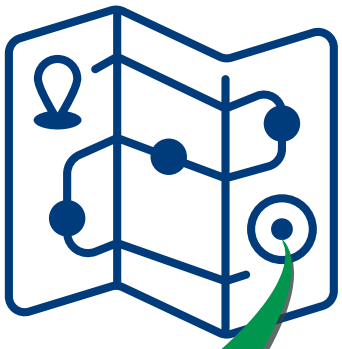
## ACCELERATE INNOVATION, DRIVE INSIGHTS, & FUTURE-PROOF YOUR BUSINESS

### AI and Machine Learning are no longer optional— they're essential to staying competitive.



Whether you're just exploring AI opportunities or scaling enterprise-grade solutions, **27Global meets you where you are.**

We deliver **full-lifecycle AI/ML services**— from use case discovery and modern data strategy to proof-of-concept and solution implementation— helping clients **unlock real business value** at every stage of their AI journey.

### AI Use Case Discovery

Our team guides client stakeholders through a collaborative workshop to identify & prioritize AI/ML use cases aligned to your strategic goals.

### Data Assessment

27Global's data experts evaluate your current data landscape & underlying architecture to determine its readiness for supporting your AI vision.

### Pilot/POC Projects

Our team can help validate your AI strategy & determine ROI by developing a low-risk Pilot/POC that delivers measurable impact

### Enterprise Rollout

27Global has the expertise to take clients from POC to production-grade AI solution, deployed with MLOps best practices.

## *Why 27Global?* - Our Approach to AI/ML

### End-To-End AI/ML Expertise

From strategic assessments to production-ready solutions, we specialize in predictive analytics, generative AI (GenAI), Agentic workflows, and traditional machine learning.

### Data-First Foundation

Strong data engineering is our DNA. We build clean, secure, compliant data architectures that enable AI success—on AWS, Azure, GCP, or hybrid platforms.

### MLOps at Scale

Beyond prototypes: we deploy, monitor, and optimize ML models with full governance, CI/CD pipelines, version control, test automation, and lifecycle management.

### Full-Stack AI Engineering Expertise

From cloud infrastructure and data pipelines to model selection, training, deployment, and application integration, 27Global delivers complete, operational AI solutions.
